FOR IMMEDIATE RELEASE

Nightly Closure of Highway 33 (Ojai Freeway) for Bridge Maintenance

Late Night Closure Scheduled Near City of Ventura

VENTURA – The California Department of Transportation (Caltrans) plans to close a portion of Highway 33 (the Ojai Freeway) north of the city of Ventura overnight on June 6, 7 and 8 (Monday, Tuesday and Wednesday nights) for bridge maintenance.

All lanes of traffic in both the north and southbound directions are scheduled to be closed between Shell Road, on the south, and Canada Larga Road, on the north, starting at 8 p.m. each night. The freeway will reopen at 6 a.m. the next morning.

Detour signs will be posted. Motorists should expect delays.

The closure is necessary for workers to perform bridge deck maintenance on the bridge where Crooked Palm Road crosses under Highway 33. The project involves removal and replacement of concrete.

Residents and local businesses located near the freeway may experience noise associated with construction activities. The project location is in unincorporated Ventura County, north of the city of Ventura.

The contractor is Autobhan Construction Inc., of Orange, Calif. The company's bid was \$1.094 million.

The closure schedule will be in effect, weather permitting, and is subject to change.

Caltrans reminds travelers to "Be Work Zone Alert."
